### AVOIDING PERSONAL LIABILITY FOR HIGHER EDUCATION OFFICERS IN THE POST-COVID WORLD-FIDUCIARY DUTY COMPLIANCE IN TIMES OF FINANCIAL DISTRESS **KLEHR HARRISON HARVEY BRANZBURG, LLP**

How institutions' governing boards and officers respond to the challenges of COVID-19 and beyond can affect not only the sustainability of the institutions themselves but also can potentially expose institutions' officers (and directors) to significant personal liability if things go south. Therefore, it is critical that during this time of financial distress and transformation, officers (and governing boards) remain mindful of their fiduciary duties to ensure sustainability, and avoid deepening the insolvency, of their institutions.
